

Workshop Pharmacoeconomic in Clinical Practice (Using Body Interact 3D Instruments)

The effective treatment based on clinical trial is still being the problem in clinical practice due to the economic perspective. Decision making of the appropriate treatment should consider both clinical effectiveness and economic factor. In this workshop, participants will be introduced into clinical experience and pharmacoeconomic perspective as the impact of treatment.

If you are interested to participate please register directly to **Ginandjar Zukhruf Saputri** (Phone +6285643607189, E-mail: zukhruf.alparslan@gmail.com OR poet_zukhruf@yahoo.com)

Date : **July 27, 2017**
